Laxmi Charitable Trust's
Sheth L.U.J College of Arts & Sir M.V. College of Science and Commerce Department of Information Technology (B.Sc.I.T Semester V)
Artificial Intelligence
Module II
Practical – II

Roll No.: T021	Name: Neeraj Mishra
Class: TYIT	Batch:1
Date of Assignment:2-09-2026	Date/Time of Submission:2-09-2026

Steps to Add People to the Full Stack Project Space

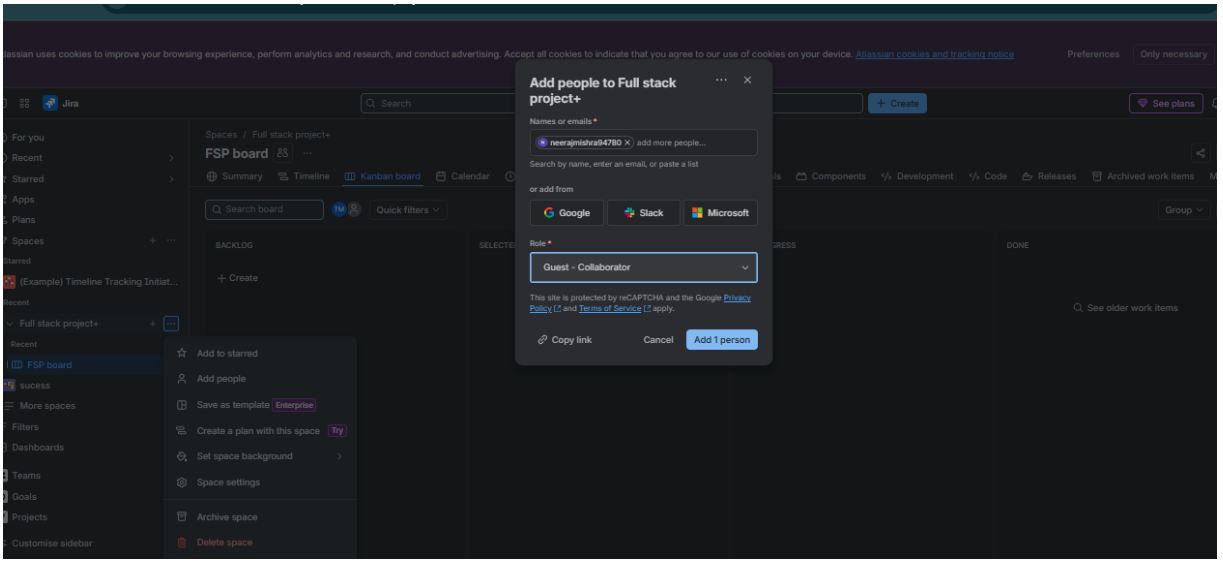

1. Open the previously created Full Stack Project space.
2. Click the three-dot (⋯) menu next to the space name.
3. Select Add people.
4. Search for the team member you want to add.
5. Select the person and confirm the addition.

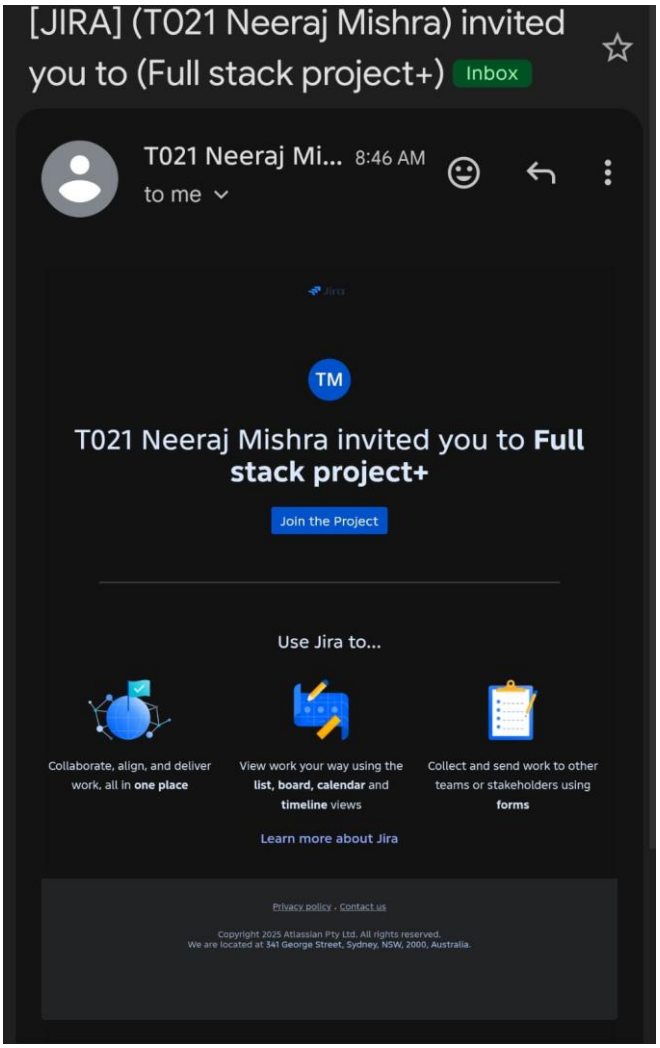

Steps to Add Team Members

1. The Add people to Full Stack Project window will appear.
2. In the Names or emails field, enter the email address of the person you want to add.
3. You can enter more than one email address if you want to add multiple team members.
4. In the Role field, select the appropriate role for the team member.
5. Available roles may include:
    - Administrator
    - Guest – Collaborator
6. Select the role based on the team member's responsibilities.

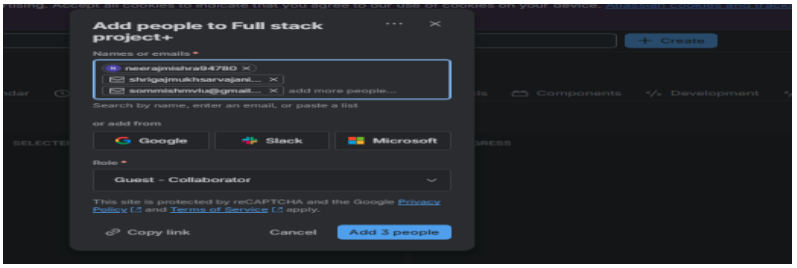

7. A role determines what the person can access and what actions they can perform within the project or space.

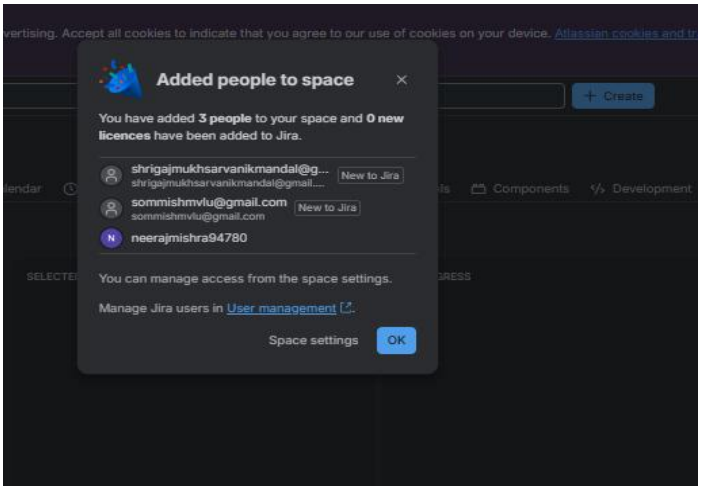

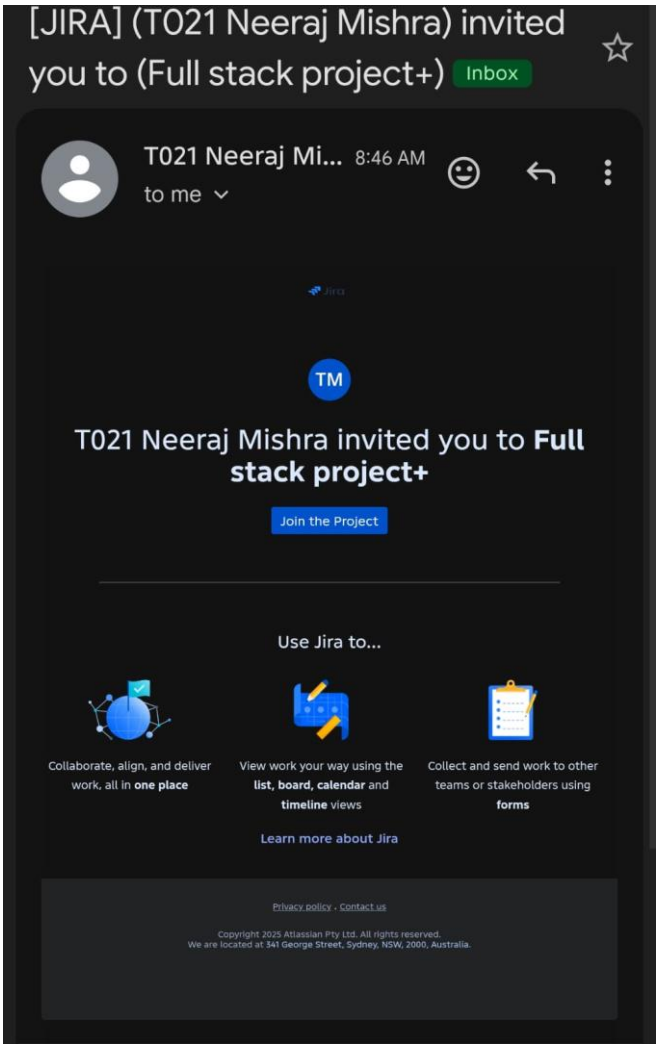

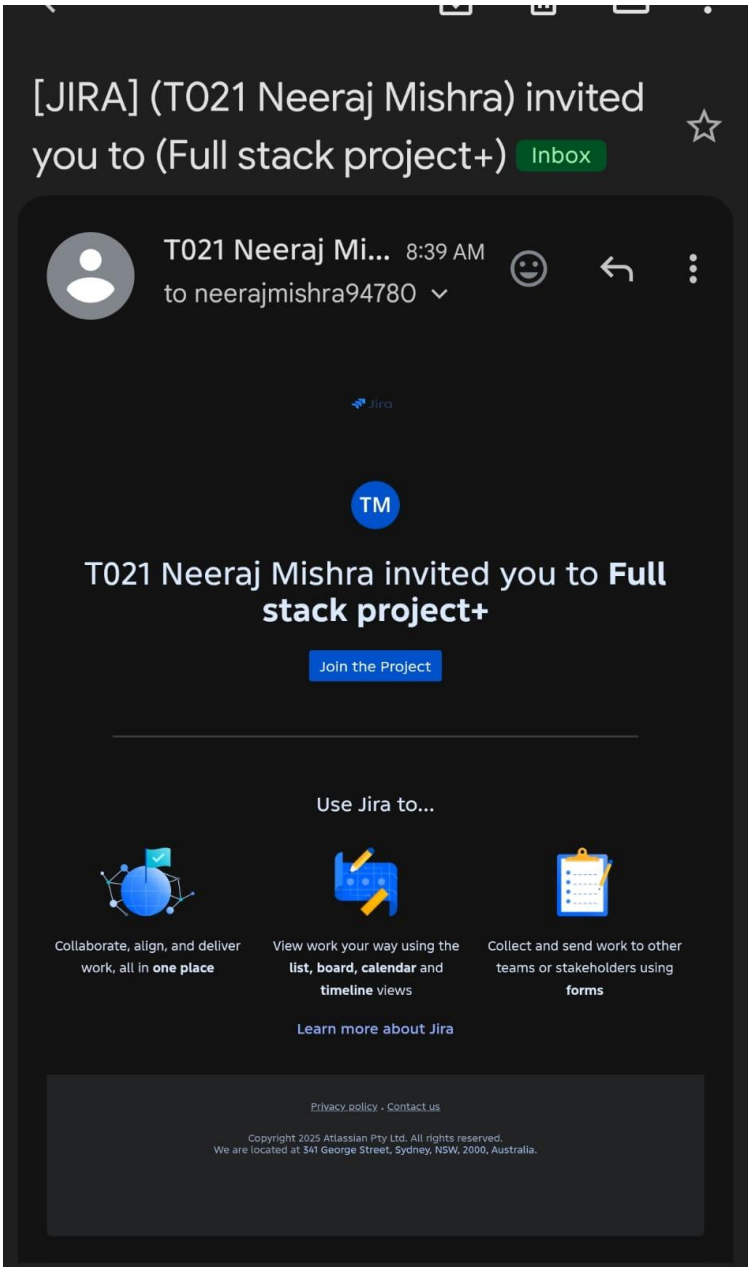

2B. Add a Group of People

1. Open the Full Stack Project space.
2. Click the three-dot (⋯) menu next to the space name.
3. Select Add people.
4. In the Names or emails field, enter the email addresses of the people you want to add.
5. Select the appropriate Role for the group of people.
6. Review the entered names/emails and selected role.
7. Click Add people to add the group.
8. The selected people will be added to the Full Stack Project space with the assigned role.
